Bill,
Attached you will find the tank specifications approved by the Department of Health for the individual lots at WhisperPoint. Please pass this along to new lot owners to assist them with their septic application to us for their tank installations. In addition to this sheet, they will need to turn in a site plan showing the appropriate setbacks are met. By passing along this information, you will be assisting your clients greatly in submitting their applications efficiently.

Thank you,

Jon Ness, R.S.
