Subject: RE: Whisper Point

Hey Bill

For the water and sewer the charges will be \$67 per month plus the \$15 monthly service fee for building the maintenance account.

You could either buy the meter and anti backflow valve that we use and we can store them and issue them as they need them, or they contact us and we buy it and charge them for that. However, they cannot buy their own and put it on, that is a no no.

Does that help.
